

Indiana Youth Gambling Behavior

Findings from the Indiana Prevention Resource
Center, Annual Survey 2015

Introduction

The following report contains data on adolescent gambling behavior reported by adolescents through the Annual Survey of Alcohol, Tobacco and Other Drug Use by Indiana Children and Adolescents, conducted by the Indiana Prevention Resource Center at Indiana University Bloomington. This survey is a self-report instrument for students in grades six through twelve. The survey is undertaken annually by the Indiana Prevention Resource Center and is used by state agencies, counties, schools and communities in Indiana to monitor the incidence and prevalence of adolescent problem behaviors and the environmental factors that put children at risk or protect them from developing those behaviors.

The gambling items on the survey were substantially modified for clarity and to capture data that are meaningful to prevention efforts in the state. The two items that previously existed on the survey were removed. The gambling section now contains a brief explanatory introduction, which reads: “The following questions ask about your GAMBLING. Gambling is playing a game in an attempt to win money (any amount) or something of value (like a video game, bike, iPod). You could gamble on a game or an event. Gambling means you don’t know if you will win or lose.” The first new question stem asks: “During the past 12 months, how often have you bet/gambled for money or valuables in the following ways? Gambling can be done in a variety of settings, including with family and friends.” The question extensions are: a. Card games (poker, blackjack, euchre, mystery); b. Personal games of skill (pool, darts, video games); c. Sports (fantasy leagues, March Madness); d. Lottery; e. Bingo; f. Online (Internet) gambling; g. Personal challenges (like a dare); h. Bet/gambled in other ways. The response options for those questions are: ‘Never,’ ‘Less than once a month,’ ‘1-3 times per month,’ ‘Once a week or more.’ The second new question stem asks: “How often have you experienced the following consequences due to your gambling?” The question extensions are: a. Academic problems (lower grades, did poorly on an exam); b. Issues with the legal system; c. Lost possessions or money; d. Felt bad about gambling; e. Poor health (sleep issues, depression, poor hygiene); f. Issues with friends and family (lied, argued). The response options for those questions are: ‘I do not gamble,’ ‘Never,’ ‘Occasionally,’ and ‘Frequently.’

As gambling options and venues in the state expand, monitoring the prevalence of gambling activities among children and adolescents is increasingly important for planning prevention efforts. This is the eighth year that the Indiana Youth Survey has included gambling prevalence items. All gambling-related questions asked about behavior and experiences in the past year. The Indiana Youth Survey included questions about playing cards, betting on games, betting on sports, buying lottery tickets, gambling in a casino, and playing online for money.

Gambling Behavior

The gambling section now contains a brief explanatory introduction, which reads: “Gambling is playing a game in an attempt to win money (any amount) or something of value (like a video game, bike, iPod). You could gamble on a game or an event. Gambling means you don’t know if you will win or lose.” The first of two new questions asked: “During the past 12 months, how often have you bet/gambled for money or valuables in the following ways? Gambling can be done in a variety of settings, including with family and friends.” The forms of gambling that were referred to in the survey are indicated in Table 19. The 35 Report prevalence of many types of gambling was higher in younger grades and lower among the older grades. For instance, the prevalence of personal games of skill, sports, Bingo, and personal

challenges was higher for younger grades (7th, 8th, 9th) compared to older grades (10th, 11th, 12th). The prevalence of card games and lottery gambling, however, was lower for younger grades and higher for older grades, with a sharp increase in lottery gambling seen among students in 12th grade. The prevalence of online gambling and bet/gambled in other ways was relatively even across grade levels.

Table 19. *Gambling behavior by Indiana adolescents in the past year (percentages)*

	Grade					
	7	8	9	10	11	12
Card games	13.4	15.5	15.3	15.7	15.3	17.3
Personal games of skill	23.1	23.2	21.4	19.9	18.4	18.5
Sports	18.0	19.3	18.3	17.7	16.3	16.3
Lottery	8.4	9.9	9.8	9.8	10.1	22.9
Bingo	10.1	9.0	7.1	6.4	5.4	6.6
Online gambling	4.0	4.7	4.3	4.0	3.6	3.9
Personal challenges	25.9	28.4	25.6	24.5	21.8	21.5
Gambled in other ways	11.1	13.8	13.1	13.1	12.6	12.8

Figure 11. Prevalence rates of any gambling behavior, grades 7 to 12

It is possible to determine the overall prevalence of gambling behavior using the responses to the first question. A student who reported having bet/gambled money in at least one way during the past 12 months was considered to have gambled. Prevalence rates of past-year gambling among 7th- to 12th-grade students ranged from a low of 36.9% (11th grade) to a high of 43.8% (8th grade) (see Figure 11). Consequences of Gambling The second new question asked: “How often have you experienced the following consequences due to your gambling?” The types of consequences listed in the survey are indicated in Table 20. The prevalence of all consequences for students in grades 8 through 10 were

higher compared to students in grades 7 and 11. The prevalence of all consequences of gambling markedly increased among students in the 12th grade.

Problem gambling items were “During the last 12 months, have you ever felt...? (a) bad about the amount you bet, or about what happens when you bet money, (b) that you would like to stop betting money but didn’t think you could.” These items, used with the permission of the Minnesota Department of Education, help identify gambling problems (Johnson, Hamer, & Nora, 1998; Johnson, et al., 1997). Among youth that reported any gambling, the findings indicate that, compared to 2013, there was a decrease in the proportion of students in Grades 6 and 8 who reported feeling bad about the amount of money they bet (see Table 14). However, among youth that reported any gambling, there were no significant differences between 2013 and 2014 in terms of the proportions of youth who reported that they would like to stop betting money but could not (see Table 15).

Table 20. Consequences of gambling by Indiana adolescents in the past year (percentages)

	Grade

Hoosier Lottery

The Hoosier Lottery is operated by the State of Indiana. On November 8, 1988, Indiana voters approved a lottery referendum by 62 percent. On May 3, 1989, the Indiana General Assembly ratified the Lottery Act, and a week later the governor signed the Lottery Act into law. In June 1989 a Lottery director was appointed, and in July the Lottery Commission was appointed. On October 13, 1989, instant, or scratch-off, ticket sales began at 12:10 P.M. More information on the Hoosier Lottery is available at:

www.hoosierlottery.com

Horse Tracks

Indiana has two horse racing tracks, Hoosier Park and Indiana Downs. Hoosier Park Racing and Casino in Anderson opened its horse track on September 1, 1994, and the Indiana Downs horse track in Shelbyville opened on December 6, 2002. Regulation and oversight of horse racing in Indiana is the responsibility of the Indiana Horse Racing Commission. www.in.gov/ihrc

Off-Track Horse Betting Parlors

Off-track horse betting parlors are located in five Indiana cities. Those in Fort Wayne, Indianapolis, and Merrillville opened in 1995 and are operated by Churchill Downs, which also owns Hoosier Park Racing and Casino. Indiana Downs operates two off-track betting facilities located in Evansville (2003) and Clarksville (2004). Regulation and oversight of these sites is the responsibility of the Indiana Horse Racing Commission. www.in.gov/ihrc

Casino Gaming

The Indiana Riverboat Gaming Act was passed on July 1, 1993, allowing riverboat gaming in Indiana. This legislation allowed for ten riverboats. The first of these ten casinos opened in 1995. In 2004, legislation was enacted that allowed a riverboat in French Lick. Regulation and oversight of casino gaming is the responsibility of the Indiana Gaming Commission. A list of other riverboat casinos in Indiana and additional information is available at www.in.gov/igc.

Charitable Gaming

Charity gaming is allowed in Indiana but only by specific types of organizations. It is defined by 68 IAC 21. A bona fide religious, educational, senior citizen, veterans, or civic organization operating in Indiana that: operates without profit to the organization's members; is exempt from taxation under Section 501 of the Internal Revenue Code; and has been continuously in existence in Indiana for at least five (5) years or a bona fide political organization operating in Indiana that produces exempt function income (as defined in Section 527 of the Internal Revenue Code) can provide charity gaming in the form of bingo games, raffles, door prizes, pull-tabs, punchboards, tip boards, charity game nights, festivals, and special bingo events. Approval from the Indiana Gaming Commission is required unless the total value of all

prizes awarded at the event (including the sale of pull-tabs, punchboards, and tip boards sold at the event) is not more than \$1,000 for a single event and not more than \$3,000 total for all non-licensed events during a calendar year. Regulation and oversight of charitable gaming was the responsibility of the Indiana Department of Revenue prior to July 1, 2006, at which time 2006 legislation transferred responsibility to the Indiana Gaming Commission. www.in.gov/igc

Racinos

In 2007, the Indiana Legislature passed legislation allowing 2,000 slot machines at each of the two horse racing tracks. This brought casino-like gaming to Central Indiana at both the Anderson and Shelbyville race tracks.

Illegal Gaming in Indiana

Internet gambling, book-making, card games for money, dog fighting, and numbers games are several types of illegal gaming that can be found in Indiana. In addition, video poker/Cherry Master machines are in widespread use throughout the State. These illegal machines can be found in bars, private clubs and truck stops and number in the thousands. Pea shake, a numbers game, can be found in some communities in pea shake parlors.

Other High-Risk Gambling Activities

Individuals often engage in other activities that have the same pathology as gambling but are not generally recognized as gambling such as stock and commodity trading.

Child Support Intercepts

On March 17, 2010, Governor Daniels signed Senate Enrolled Act 163 into law. This law, among other things, contains a requirement that casinos withhold delinquent child support from the casino winnings of child support obligators whenever the obligator's winnings generate a W-2G and the obligator's delinquency exceeds \$2,000. The law stating this requirement is IC 4-35-4-16.

Minimum Age Requirements

The minimum age to participate in the Hoosier Lottery, pari-mutuel betting (betting in a pool), and charity gaming in Indiana is 18 years old. The minimum age to participate in casino gambling is 21 years old.

Help Lines and Referrals

The Division of Mental Health and Addiction supports a confidential, toll-free help line for people seeking information and/or resources about problem gambling for themselves or others. The Indiana Problem Gambling Help Line is operated twenty-four (24) hours a day, three hundred sixty-five (365) days a year. The hotline is linked to the national toll-free number of the National Council on Problem Gambling's help line, so when Indiana callers phone this line, they are automatically connected to the Indiana Problem Gambling Help Line.
