Have you ever felt the need to bet more and more and more money?  
 Have you ever had to lie to people about how much you gamble?  
 An answer "yes" to either or both of these questions may indicate a problem with gambling.

Lie Bet Screen by Johnson, E.E., et al. (1988).

The enneagram is a map used to diagram 9 distinct ways life force energy illustrates patterns of thinking, feeling and reacting. The presenter has used this map while treating many persons impacted by gambling disorders and substance use addictions and has found its use very effective in assisting clients in recovery.

In this 2 hour workshop the presenter will provide a brief description of why the enneagram is a unique tool used in addictions and behavioral health treatment. The presenter will describe what the enneagram is, various ways to use the enneagram, provide a tour of the 9 character structures of the enneagram, describe why core motivation is an important factor in treatment and discuss the DSM correlates for each of the 9 types.

**Learning objectives:**

1. Each participant will be able to describe what the enneagram is.
2. Each participant will be able to discuss why core motivation is important when addressing personality assessment.
3. Each participant will be able to describe various ways the enneagram can be used in gambling and substance use addiction and behavioral health treatment.
4. Each participant will be able to discuss how certain underdeveloped types match various DSM correlates.

Renee Siegel has been counseling and coaching individuals and groups for over 35 years. She holds various licenses and certifications in behavioral and physical health modalities. She is passionate about educating individuals and groups on the use of the enneagram. "It's been a game changer. The enneagram helps us to identify our patterns of thought, emotion and behavior so that we can make changes to improve our lives. It helps us get out of the box we have put ourselves in." Renee teaches and trains around the globe and practices in Scottsdale, Arizona.

The Indiana Council on Problem Gambling presents

**Indiana Disordered Gambling Call Options**

IPGAP offers two different types of calls for disordered gambling providers. Check out the information below to find out which calls are right for you!

**Clinical Consultant Calls:**

- ✔ These calls are intended for **any level of counselor** who would like to improve skills. These calls provide the opportunity for counselors to present or learn about a disordered gambling client case study and then discuss treatment. This is a wonderful opportunity to ask questions of a National Council on Problem Gambling Board Approved Clinical Consultant (BACC). These calls will also provide participants with 1 CEU.
- ✔ All contracted disordered gambling provider counselors are required to participate in at least two of these calls per year. This includes lead disordered gambling counselors as well as disordered gambling counselors with or without an IPLA license.
- ✔ These calls take place the second and fourth Friday of each month from September 2018 to June 2019. These calls are from 2:30pm to 4:00pm eastern time. You must register for the call at: [https://iu.co1.qualtrics.com/jfe/form/SV\\_cualPXLrp7NTs8t](https://iu.co1.qualtrics.com/jfe/form/SV_cualPXLrp7NTs8t). You will receive an email with the call information after you have registered.

**Provider Calls:**

- ✔ These calls are intended for **lead counselors and administrators** of contracted disordered gambling providers in Indiana. Each contracted provider in Indiana should have at least one agency member, such as a lead gambling counselor, on the call.
- ✔ These calls will take place from 10:00am to 11:30am eastern time on September 12<sup>th</sup>, December 12<sup>th</sup>, March 6<sup>th</sup>, and June 12<sup>th</sup>.
- ✔ The call will begin with an educational component followed by provider update information from DMHA and IPGAP. This may include manual changes, contract information, or upcoming events. These calls will also provide participants with 1 CEU.

If you would like to participate in one of the calls, but do not have the call information, please contact Heather at: [hdolne@iu.edu](mailto:hdolne@iu.edu)

Still unsure about which calls you should participate in? Please contact Desiree: [desiree@indiana.edu](mailto:desiree@indiana.edu) or Mary: [maholtsc@indiana.edu](mailto:maholtsc@indiana.edu)

**Dennis Brian "Denny" Ailes**  
 May 28, 1951 - September 12, 2018

Dennis Brian Ailes, age 67, of Greenfield, passed away on Wednesday, September 12, 2018 after a long battle with cancer. He was a counselor to those struggling with mental health and battling addiction. Denny touched many lives and will be greatly missed.
