For the rest of the interview, I want you to keep (EVENTS) in mind as I ask you some questions about how they may have affected you.

I'm going to ask you about twenty-five questions altogether. Most of them have two parts. First, I'll ask if you've ever had a particular problem, and if so, about how often in the past month (*week*). Then I'll ask you how much distress or discomfort that problem may have caused you.

**Criterion B. The traumatic event is persistently reexperienced in one (or more) of the following ways:**

1. (B-1) recurrent and intrusive distressing recollections of the event, including images, thoughts, or perceptions.  
**Note:** In young children, repetitive play may occur in which themes or aspects of the trauma are expressed.

<p><b>Frequency</b>  <b>Have you ever had unwanted memories of (EVENT)? What were they like?</b> (<i>What did you remember?</i>) [IF NOT CLEAR:] (<i>Did they ever occur while you were awake, or only in dreams?</i>) [EXCLUDE IF MEMORIES OCCURRED ONLY DURING DREAMS] <b>How often have you had these memories in the past month (week)?</b></p> <p>0 Never  1 Once or twice  2 Once or twice a week  3 Several times a week  4 Daily or almost every day</p> <p><b>Description/Examples</b></p>	<p><b>Intensity</b>  <b>How much distress or discomfort did these memories cause you? Were you able to put them out of your mind and think about something else?</b> (<i>How hard did you have to try?</i>)  <b>How much did they interfere with your life?</b></p> <p>0 None  1 Mild, minimal distress or disruption of activities  2 Moderate, distress clearly present but still manageable, some disruption of activities  3 Severe, considerable distress, difficulty dismissing memories, marked disruption of activities  4 Extreme, incapacitating distress, cannot dismiss memories, unable to continue activities</p> <p><b>QV (specify)</b></p> <hr/>	<p><b>Past week</b></p> <p>F ____  I ____</p>

		<p><b>Lifetime</b></p> <p>F ____  I ____  Sx: Y N</p>

2. (B-2) recurrent distressing dreams of the event. **Note:** In children, there may be frightening dreams without recognizable content.

<p><b>Frequency</b>  <b>Have you ever had unpleasant dreams about (EVENT)? Describe a typical dream.</b> (<i>What happens in them?</i>) <b>How often have you had these dreams in the past month (week)?</b></p> <p>0 Never  1 Once or twice  2 Once or twice a week  3 Several times a week  4 Daily or almost every day</p> <p><b>Description/Examples</b></p>	<p><b>Intensity</b>  <b>How much distress or discomfort did these dreams cause you? Did they ever wake you up?</b> [IF YES:] (<i>What happened when you woke up? How long did it take you to get back to sleep?</i>) [LISTEN FOR REPORT OF ANXIOUS AROUSAL, YELLING, ACTING OUT THE NIGHTMARE] (<i>Did your dreams ever affect anyone else? 3. (B-3) acting or feeling as if the traumatic event were recurring (includes a sense of reliving the experience, illusions, hallucinations, and dissociative flashback episodes, including those that occur on awakening or when intoxicated). **Note:** In young children, trauma-specific reenactment may occur.

<p><b>Frequency</b>  <b>Have you ever suddenly acted or felt as if (EVENT) were happening again?</b> (<i>Have you ever had flashbacks about [EVENT]?</i>) [IF NOT CLEAR:] (<i>Did this ever occur while you were awake, or only in dreams?</i>) [EXCLUDE IF OCCURRED ONLY DURING DREAMS] <b>Tell me more about that.
